

Spaceship Passenger Summary Report

This report summarizes key insights about the passengers on board the spaceship based on the provided information.

Demographics:

- **Age Distribution:**
 - **Baby: 499**
 - **Kid: 219**
 - **Teenager: 1717**
 - **Youth: 4527**
 - **Adult: 1511**
 - **Old: 220**
- Average passenger age: 29 years old
- Oldest passenger: 79 years old

Passenger Spending:

- Average spending varies by service:
 - Shopping mall: \$174
 - Spa: \$311
 - VR Deck: \$305
 - Room Service: \$225
 - Food Court: \$458
- Maximum spending observed across all services is significantly higher than the average.

Non-Spenders:

- A significant number of passengers (3247) haven't spent any money onboard.
- Their average age is younger (25 years old) compared to the overall average.

Travel Information:

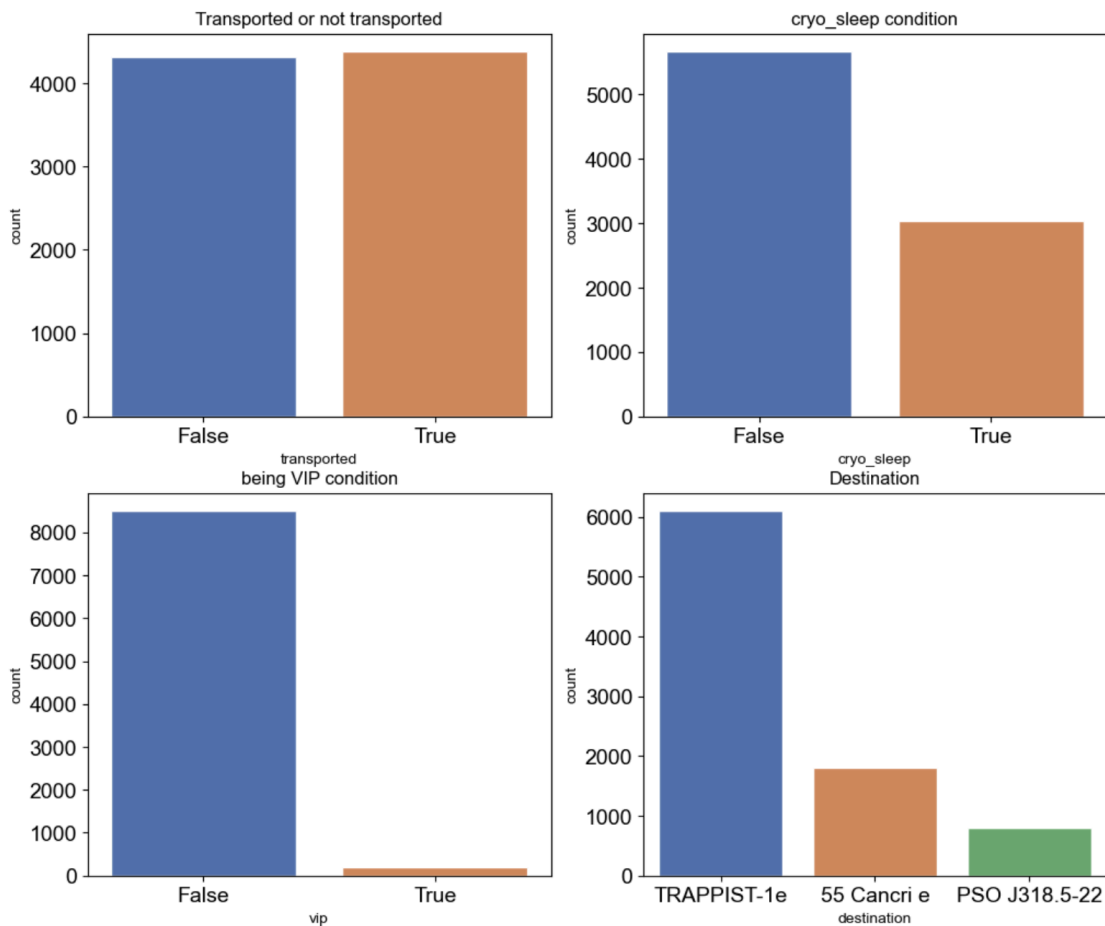

- Most passengers are from Earth.
- The most popular travel destination is TRAPPIST-1e.

Data Quality:

- There are missing values in most columns except for ID and transported status.

Additional Observations:

- "Gollux Reedall" is the only name that appears twice in the dataset. This might indicate a duplicate entry or a passenger traveling with a companion of the same name.

Further Analysis:

- Investigate if there are correlations between passenger age, origin planet, and spending habits.
- Analyze travel patterns and preferences based on destination choices.
